WAR

FRC Team 7183

STUDENT NEWSLETTER SEPTEMBER 2026

With our introduction period complete, Team 7183 is officially getting started with the new season!

After spending the first few weeks of the year introducing new members to FIRST and our team, we have finally settled into our first official technical and non-technical meetings! These meetings will allow our members to develop both the technical skills needed to build and compete with our robot, as well as the non-technical skills necessary to help our team succeed.

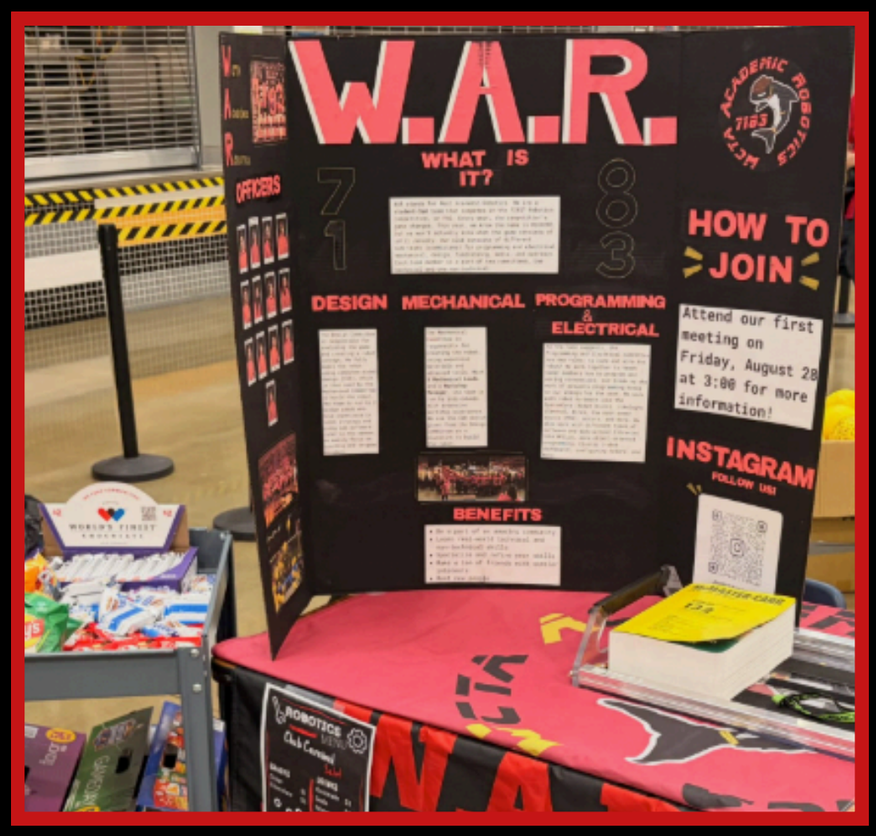

Commitment Day has passed! As of October 1, WCTA Robotics has 83 prospective members including our VEX subteams (Team 89135A, D, X, and W).

At this time, parents are asked to fill out their sign-up form (QR code and link are on this newsletter) for this school year and set up their Double Good stores. Students will provide their families with the event code.

Upcoming fundraiser: Double Good (10-19 to 10-26)

Upcoming event: 10-24 FRC Fall Conference

Exciting News: We are officially registered for the Las Vegas Regional in 2027!!!
