WAR

FRC Team 7183

STUDENT NEWSLETTER - OCTOBER

This month, our robotics team kicked off the fall season with high energy and creativity! Returning members trained newcomers in design, build, and coding basics as we prepared for upcoming competitions. We also welcomed elementary GATE students for an outreach visit and are thrilled to announce that we will be attending and presenting at the FRC conference on 10-25 to learn, connect, and grow as a team.

We have been crushing it with fundraisers this month! From DoubleGood popcorn sales to our exciting Laser Tag fundraiser, the team has been working hard to raise money to achieve that goal of a strong running robot. Get ready for our Chipotle fundraiser on 11-5, so bring that appetite and help fuel the team.

As the season gears up, the energy in the team is electric. Every week we are building, coding, designing, and bonding more as a team. With dedication, teamwork, and a few extra burritos, we are ready to make this robotics season our best one yet!

CALLING ALL ADULTS! VOLUNTEER AT OUR UPCOMING ROBOTICS COMPETITION ON 12-6 AND JOIN THE FUN!
