STUDENT NEWSLETTER - SEPTEMBER

The season is here, and we are back in action! September marks the start of our robotics journey this year, and the team is already buzzing with energy. From warm-ups to brainstorming, we are laying the groundwork for what promises to be an exciting and innovative season.

New members, welcome aboard! We are thrilled to see so many fresh faces join our team this fall. These first weeks are all about building confidence, learning the ropes, and getting comfortable with our tools, systems, and teammates. Collaboration and curiosity are key, and our rookies are already stepping up to the challenge!

Looking ahead, the momentum is growing. As we dive into training and skill-building, we are preparing to take on bigger goals in design, coding, and strategy. Every practice brings us closer together as one team, and we cannot wait to see what this season has in store. Let's make it a year to remember!
