WAR

FRC Team 7183

STUDENT NEWSLETTER - FEBRUARY

WAR Team kept the momentum going in February with an outstanding performance from our VEX teams at the VEX competition hosted at WCTA. Competing against strong opponents, our students showed great teamwork, preparation, and strategy throughout the event. Their communication and composure under pressure truly reflected the strength and dedication of our robotics program.

This month, we also gave back to our community through a successful book drive. With the support of our students and families, we collected and donated books to Big Brothers Big Sisters of Southern Nevada. This effort highlights our commitment not only to STEM, but also to making a positive impact beyond the classroom.

We are also excited to share that our robot design is officially finalized, and the physical build of our mechanisms is complete. Our mechanical team has worked hard to ensure each part is built with care and precision. With only the electrical systems left to finish, we are looking forward to bringing everything together as competition season approaches.
